

# Statement of Boiler Efficiency

## Certification of Eligibility for the American Recovery & Reinvestment Act of 2009

### IRS Credit for Residential Energy Products

We certify that the Econoburn™ EBW-100, EBW-150, and EBW-200, burn biomass to heat a dwelling unit and/or hot water for a dwelling unit. When operated properly and in accordance with the Operating Manual, Econoburn™ boilers achieve thermal efficiency ratings greater than 75%. Accordingly, Econoburn™ wood-fired boilers constitute Qualified Energy Property under the Improvement and Extension Act of 2008 and are eligible for tax credits under the American Recovery and Reinvestment Act of 2009. I declare that I have examined this certification statement, and to the best of my knowledge and belief, the facts are true, correct, and complete.

The following Alternative Fuel Boiler product has been installed at the address below which is the primary residence of the taxpayer:

- Econoburn™ EBW-100
- Econoburn™ EBW-150
- Econoburn™ EBW-200

Please retain this certificate with your tax records, however it is not required to be submitted with your tax return. A taxpayer may claim a credit with respect to expenditures paid or incurred for new Qualified Energy Property only if it is installed between January 1, 2009 and December 31, 2010 in the dwelling unit which is the taxpayer's principal residence. **DISCLAIMER:** Alternative Fuel Boilers is not a tax advisor. Taxpayers claiming a tax credit should consult a tax professional with any questions.
